/BenchGen/src/scripts
/grammarEnumeration/grammarEnumerator.h

```
graph BT; A["/home/silva/doxygen  
/BenchGen/src/scripts  
/grammarEnumeration/Driver.cpp"] --> C["/home/silva/doxygen  
/BenchGen/src/scripts  
/grammarEnumeration/grammarEnumerator.h"]; B["/home/silva/doxygen  
/BenchGen/src/scripts  
/grammarEnumeration/grammarEnumerator.cpp"] --> C;
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: /home/silva/doxygen /BenchGen/src/scripts /grammarEnumeration/grammarEnumerator.h. Below it are two white boxes representing source files. The left box is /home/silva/doxygen /BenchGen/src/scripts /grammarEnumeration/Driver.cpp, and the right box is /home/silva/doxygen /BenchGen/src/scripts /grammarEnumeration/grammarEnumerator.cpp. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
